

# Y3 Home Learning - Friday 22nd April 2016

**Task:** Earth Day - Find out about something that you can do to help our earth and slow down the effects of climate change.

## Things to think about:

- What is happening to the earth? What problems are there?
- What could you do to make a difference?
- How will your actions affect the earth?

## Ideas

### Reduce, reuse, recycle

What does this mean?

Find out about recycling.

What is it? How does it help?

What facts can you find out about it?

How do they recycle different materials?

Are there any materials that you can't recycle? Why can't you recycle all materials?

### Saving Water

How much water do we waste? What happens when we waste water? Why is it a bad thing? How can we save more water? What effect will this have on the earth? Why is water so precious?

### Saving energy

How can we save electricity/energy? What effect would it have? What happens when we waste energy?

### Pollution

What is pollution? What causes it? What effect does it have on the earth?

How can we reduce it? What impact will that have?

Choose one area to research. Present your findings clearly and creatively.

Use the internet safely and make sure that you have adult supervision.
