Geography	Exploratory Dig: Use maps, aerial images and site visits to select an area of the school grounds or a nearby green site suitable for an exploratory dig. Make sure any site is away from human features, so as to cause the least disruption. Work in groups of four or five at the site, measuring out a 30cm ² area with tent pegs and string. Use spades, hand trowels, hand forks, small rakes and spoons to dig a pit up to 30cm deep. Transfer all	Food Journeys: Research the journey taken by a banana or another non-native fruit or food item of their choice, from its country of origin to the fruit bowl. Use a range of sources to gather information and plot routes on a world map. Use the chosen fruit as a main ingredient in making dishes. Unusual Foods: Match pictures of unusual foods to their country of origin, using a world map to locate them.	Ancient Greece: Investigate maps of ancient Greece, noting how the country was once divided into a collection of smaller city-states. Make a simple sketch map to show the states of ancient Greece, including important geographical features, such as islands, seas and mountains. Plotting a journey: Locate Greece on a globe or map, identifying the continent on which it lies and its	Urban Visit: Let the children get a multisensory feel for busy, buzzing urban life. Identify a local urban location using an Ordnance Survey map and use four-figure grid references to locate significant human features. Visit identified buildings, such as the city or town hall, main square and tourist office, and make a simple sketch map of their route using symbols and a key. Search for examples of urban art including	River Visit: Visit a local stream or river to find out more about its characteristics. Can children find the answers to geographical questions, such as 'What river features can be seen? Which animals and plants live there? How fast does the river flow? What is the soil like in the area? Is there any human activity taking place along the river?' Dip nets and jars in the water to catch, identify and record a range of	The Peregrine Falcon: Watch footage of the peregrine falcon, finding out its favoured habitat and in which continents and countries it can be found. Consider how it has been able to colonise urban landscapes as well as coastlines. Draw a bird's eye view of a familiar local landscape, imagining what they would see if they were a peregrine flying overhead. Use a grid to draw their maps and a key

	<p>soil and plant material onto trays or a large plastic sheet for examination. Remove and collect any items found in the pit and soil, including natural and man-made objects. Release any unearthed creatures into the pit and backfill it with all the soil and firm down. Return to the classroom and carefully clean their finds with warm water and soft brushes. Lay out their discoveries and share with others. Discuss what their finds reveal about human activity and how the land is used.</p> <p><u>Traces from the past:</u> Look at a range of aerial images and consider which of these places an archaeologist would consider worth investigating and why. Sort the aerial images into two groups: locations that seem worth investigating and those that do not. Discuss what kind of evidence an aerial photograph reveals to help an archaeologist decide where to excavate. Look for traces of boundaries, shapes and patterns in the landscape and suggest what they might be. Label images to show their ideas.</p> <p><u>Iron Age Hillforts:</u> Look at a range of maps and aerial</p>		<p>surrounding countries. Look at pictures and photographs of the Greek landscape, making judgements about physical aspects of its geography, including weather, terrain and settlements. Plot the journey made by Icarus and Daedalus from the island of Crete to Sicily.</p> <p><u>Locating the Labyrinth:</u> Look at and investigate the island of Crete and the Palace of Knossos using world maps. Draw a simple sketch map to show the shape of the island and use travel brochures and websites to find out why it is popular with today's travellers. Does the Minotaur's labyrinth really exist?</p> <p><u>Ruler of the Lands:</u> Look again at modern maps of Greece and find an area or region that they would like to rule in their role as a new deity. Use maps, plans and the web to find out about the place they have chosen and draw a sketch map on a grid to identify its features. Include a key to identify key features and their grid references.</p>	<p>graffiti, murals, statues and sculptures, taking digital photographs from different angles and perspectives. Prepare a simple survey to quiz passersby about the appeal and practicalities of their city centre. Record the interviews on audio recording device for use back in the classroom.</p> <p><u>Carrying out a survey:</u> Carry out a survey amongst parents and carers to find out what they do for a living and where they work. Analyse results to learn about the range of parents' jobs, how far they travel and how their work contributes to the city or town's economy. Display the data collected using a range of graphing methods including tables, pictograms and bar charts.</p> <p><u>Night Lights:</u> Use web-based satellite mapping tools to view light patterns across the world, making contrasts between the planet's remotest and most densely populated areas. Identify various UK cities, revealed as clusters of light by the mapping tools.</p> <p><u>Making Comparisons:</u> Use a range of source materials, such as photographs, the web,</p>	<p>water based creatures. Observe how fast an unpeeled orange or plastic ball travels along the same distance of three different sections of the river (try to get sections of the river with different features, such as straight section, a meander, a rocky section, a deep section, or a shallow section). Where does the river flow fastest? Collect soil and water samples from various locations along the river bank to take back to school for further investigation. Help children to spot and name the river's fascinating physical features, like meanders, oxbow lakes and tributaries. Capture images with a digital camera and use clipboards to record data and sketches.</p> <p><u>Locating Human and Physical Features</u> Find the location of the river or stream visited using an Ordnance Survey or digital map. Follow its course, noting significant physical features, such as its source, mouth and tributaries and observe and read their four-figure grid references. Mark the physical features on a printed or photocopied version of the map. Plot human features along its</p>	<p>to identify human and physical features.</p> <p><u>Distribution of a species:</u> Investigate where crocodiles and alligators are found in the wild. Mark their distributions on a digital map of the world and describe how the geography of these places supports their predatory needs.</p>
--	--	--	---	--	--	---

	<p>images to find and observe Iron Age hillforts. Make diagrams and plans of an Iron Age hillfort and describe its features. Imagine they are a local chief deciding where to build a new hillfort. Identify a suitable location on a local map and draw a plan of it.</p>			<p>non-fiction books, street maps and underground train maps to find out about the urban characteristics of the city of Berlin. Compare with maps and plans of their city or town and show the differences in a chart or table.</p> <p><u>Fantasy City Centre:</u> Make a map or plan to design an amazing communal area for a fantasy city centre. Think about essential and optional features to include, such as parks, a transport system, hospitals, office blocks and housing. Use a grid and key to position and identify their features.</p> <p><u>Promotional Speeches:</u> Write a one minute promotional speech explaining what is great about their city or town. Present their speech to others in the group, highlighting all of the good things about living there.</p>	<p>course, including local towns or cities, to show where the river flows in relation to human settlements.</p> <p><u>Flow Rates:</u> Revisit the data collected for the orange or ball travelling in the river at the different sections tested. Draw conclusions on the rates of water flow in all areas tested and what might have caused any differences seen. Refer back to sketch maps and Ordnance Survey maps, noting where each set of data was taken, as this will help them to make their deductions.</p> <p><u>Collecting River Data:</u> Search for and name the world's major rivers on a world map or globe. Complete a table to represent world river data using the following headings: Name of river; Hemisphere; Latitude and longitude; Continent; Countries; Mouth (sea or ocean).</p> <p><u>Land Use:</u> Look at books and photographs showing land use and services associated with rivers. Describe what they can see and classify into groupings, such as leisure, housing, travel and</p>	
--	--	--	--	--	--	--

					<p>industry. As a class, create a list of the positive and negative impacts of each category on local communities and the environment.</p> <p>A river of my own: Imagine they have been given a section of river and think about what they might do with it. Draw a grid map, using four-figure grid references and a key, showing how they would develop their section. Remember to consider its environmental impact and explain what steps they would take to minimise any negative impacts.</p>	
History	<p>British Timeline: Arrange pictures and dates on a timeline to show the chronology of the Stone Age, Bronze Age and Iron Age. Use source materials to find out the characteristics of each of these periods. Consider why finding out about these periods of history is challenging.</p> <p>Making Comparisons: Complete a prepared table to show how life in the Palaeolithic, Mesolithic, Neolithic, Bronze and Iron Ages evolved over time. Make notes to describe each period under the headings tools,</p>	<p>Scurvy: Use a range of historical resource materials to find out more about James Lind. Work in pairs to create a timeline of his life, beginning in 1716 and ending in 1794. Pose questions to investigate his life further and suggest ways to answer them. Consider the overall cause and effect of his work.</p>	<p>Timelines: Order events and dates from ancient Greek history on a timeline. Place and date significant events and people, such as the first Olympic Games, the first Persian war and the Battle of Marathon, the Peloponnesian Wars, the reign and death of Alexander the Great, the discovery of displacement by Archimedes, the invasion of the Romans and the end of the city states, Athens and Macedon.</p>	<p>The History of our Town: Use a range of historical source materials to research the history of their town or city, finding out why it developed, what major events have happened there, when the first settlers arrived, whether it has been affected by significant disease, such as plague or cholera, and the key industries that have helped it to grow. Discover how it has changed over the years by talking to older generations of their own family and by inviting historians, librarians or local residents into school to talk about the local</p>	<p>Riverside Settlements: Work in small groups to brainstorm ideas for the question, 'Why have people historically settled by rivers?' Discuss, share and compare their ideas. Use a UK map to find a local or nationally significant town or city situated next to or on a river and use the web and historical source materials to find out why it grew as a settlement.</p>	

	<p>settlements and use of materials. Decide which sources will best help them complete this task.</p> <p><u>What is an archaeologist?:</u> Invite an archaeologist or museum curator into school to talk about the importance of their work in finding out about ancient civilisations. Ask them to explain how archaeology helps us find out about the past. Before the visit, make a list of questions to ask. Make choices about the best way to present the information given.</p> <p><u>Everyday Life ion the Stone Age:</u> Use a range of historical source materials, including books, websites and films, to find out about the roles of men and women in Stone Age families. Collate their research under headings, such as food, work, children, settlements, tools and weapons. Make a short digital presentation with text and images to summarise their findings and share this with the class.</p> <p><u>Stone Age Farming:</u> Use a range of different source materials, including the web, to find out how and why Stone Age people evolved from hunter-gatherers to farmers.</p>		<h2>The History of the Olympic Games and then local History – The history of Finchley Cricket Club.</h2> <p><u>Everyday Life in Ancient Greece:</u> Use a range of historical source materials, including books, artefacts, images and information books, to investigate the everyday life of the ancient Greeks, contrasting the lives of the rich and poor. Record their findings using drawings, labels, notes, ICT and written work.</p> <p><u>Famous Greeks:</u> Find out about other famous Greeks, such as Plato, Aristotle, Parmenides, Archimedes, Pythagoras and Alexander the Great. Use a range of historical resource materials to find out the information and record on Top Trumps style cards. Decide, as a class, the categories for each card.</p> <p><u>Greek Solidiers:</u> Look at a selection of images of ancient Greek soldiers. Find out what they wore</p>	<p>changes seen in their lifetime. Use digital media to record conversations.</p> <p><u>Prominent Urban Buildings:</u> Research the history of a prominent city centre building, such as a cathedral, church, city hall or train station. Visit it to search for clues about its history. Explore historical sources and talk to experts, asking them to share their knowledge about the building’s story.</p> <p><u>The Future of our Town:</u> Look back at their timeline of historical developments (The history of our town), and talk about changes that have affected their everyday lives and the current characteristics of their town or city. Make a prediction card to add to the timeline, using various dates in the future. How do they think their town or city will change? Are there any significant national or international events that might impact their locality?</p>		
--	---	--	--	---	--	--

	<p>Make suggestions as to whether they think this improved or damaged the environment and use the information gathered to create an imaginary advert for the sale of a small settlement and farm, which highlights the benefits of a more modern way of life.</p> <p>Everyday Life in the Bronze Age: Find out about life during the Bronze Age. Work in groups to research clothing, homes, diet, farming, work and weather. Choose an attractive way to present their findings.</p> <p>Neighbourly Tensions: Find out how the rise of wealth and trade created tensions between neighbouring settlements. Discover why this changed the ways that people lived and farmed and led to the raiding of rival settlements by opposing warriors. Divide into two settlements made up of warriors, homemakers, farmers and children. Elect a leader and act out a dispute between neighbouring settlements over cattle and other valuable goods.</p> <p>Everyday Life in the Iron Age: Use a selection of historical source materials to find out about the tribal life of Iron Age people.</p>		<p>and what weapons they fought with. Draw a detailed illustration of a Greek soldier, correctly labelling his uniform and weapons.</p> <p>Battle of Marathon: Listen to the story of the Battle of Marathon and the heroism of the Greek messenger, Pheidippides. Consider how this legend has continued into modern life. How many marathons are run worldwide today?</p>			
--	---	--	---	--	--	--

	<p>Discover how tribes were led and ruled, where they built their homes and how they worked together to defend them. Find out about the jobs done by women, what life was like for an Iron Age child and how the land was farmed. Investigate the tools and weapons that they made. Create dramatic scenarios with dialogue to showcase what they have learned and understood.</p> <p>Lindow Man: Find out about the Lindow Man. Act as historians, gathering gruesome evidence about him and identify the cause and effect of this amazing discovery. The British Museum has some useful information and images. Read online newspaper reports and other evidence to find out who archaeologists believe he was and what they think happened to him. Answer the question, 'Why is the Lindow man so well preserved?' Write a short article for the fictitious magazine The Weekly Historian, telling readers some of the details of this important find.</p> <p>Gods and Goddesses: Find out about Celtic beliefs, including the many gods and goddesses who were believed to take care of different aspects of the</p>					
--	--	--	--	--	--	--

	<p>natural world. Alator, Brigantia, Saitada and Nuada are all interesting to research. Hold a Celtic gods and goddesses day. Come dressed for the part and present their roles and responsibilities to others in the group. Decide who is the coolest deity.</p> <p><u>Time Machine:</u> Imagine stepping into a time machine. Discuss which era they would prefer to visit and explain why. Prepare a mini presentation to pitch their choice, referring to the era's key features. Take a class vote, then launch the time machine.</p> <p><u>What are you worried about?</u> Compare life in prehistoric times to their lives today. Describe the similarities and differences. Consider what people living in those days would have worried about and compare these to modern people's worries. Explain which they think matter most.</p> <p>Black History Month – Rosa Parks.</p>					
Science	Earth Rocks		We are Astronauts	Mirror Mirror	How does your garden grow?	Opposites Attract

Art	<p align="center"><u>Gestural Drawing with Charcoal</u> Making loose, gestural drawings with charcoal, and exploring drama and performance.</p>		<p align="center"><u>Working with Shape and Colour</u> "Painting with Scissors": Collage and stencil in response to looking at artwork.</p>		<p align="center"><u>Making Animated Drawings</u> Explore how to create simple moving drawings by making paper "puppets" and animate them using tablets.</p>
